

1. Identification of the preparation and the supplying Company	<p><b>GREY SQUIRREL BAIT. A ready to use bait to control grey squirrels indoors.</b>  <b>Product Code: SQBAIPCO</b>          Killgerm Chemicals Ltd, Denholme Drive, Ossett, West Yorkshire, WF5 9NA.          Tel: +44 (0)1924 268450 Fax: (0)1924 265033 Email: <a href="mailto:technical@Killgerm.com">technical@Killgerm.com</a></p>												
2. Hazard identification	<p><u>Main Hazards</u>          Grey Squirrel Bait is not classified as hazardous.          Large quantities would need to be ingested to produce a toxic effect. Avoid all contact by mouth.          Practically non-hazardous by skin contact.          Symptoms of poisoning: Spontaneous haemorrhage from the nose, into the skin or internal organs.          Onset may be delayed.          First Aid: If any of the above symptoms occur, particularly if there is known contamination (including on previous occasions):              Stop work.              Remove all contaminated clothing, wash exposed skin and hair.              Prevent all exertion.              Call doctor AT ONCE and show label.          Guide to doctor: This product contains warfarin, an anticoagulant.          Treatment:              1. Vitamin K1 (phytomenadione) 10-20mg orally (pro rata for children). Repeat daily until prothrombin time returns to normal.              2. In severe cases, transfusion of fresh, frozen plasma or blood may be indicated together with vitamin K1.              3. In some cases, symptoms may reappear if treatment is stopped prematurely. Prothrombin time should be monitored for 2 weeks after stopping vitamin K1.          Confirmation of diagnosis: By estimating prothrombin time.          This product is hazardous to mammals including domesticated animals, and birds if ingested.          Exposure of non-target animals should be prevented.</p>												
3. Store and transport away from products which may have an odour.</td> </tr> </table>			Precautions in use:	The product must be used and stored only in accordance with the product label. Refer also to the section 'Exposure Controls/Personal Protection'. Avoid all contact by mouth. Wash hands and exposed skin before meals and after work. Empty container completely and dispose of safely.	Storage and transport precautions:	Keep in original container under cool and dry conditions in a secure, well-ventilated place, inaccessible to children, and away from foodstuffs and animal feedstuffs. Store and transport away from products which may have an odour.						
Precautions in use:	The product must be used and stored only in accordance with the product label. Refer also to the section 'Exposure Controls/Personal Protection'. Avoid all contact by mouth. Wash hands and exposed skin before meals and after work. Empty container completely and dispose of safely.												
Storage and transport precautions:	Keep in original container under cool and dry conditions in a secure, well-ventilated place, inaccessible to children, and away from foodstuffs and animal feedstuffs. Store and transport away from products which may have an odour.												

8. Exposure controls and personal protection	<b>PPE ITEM</b>	<b>IN USE</b>	<b>SPILLAGE</b>
	Respirators		Half mask respirator to EN140 plus P class filter to EN 143 to required (nominal) protection factor (minimum).
	Gloves	Unlined/Flock lined, synthetic rubber/PVC to EN 374. (300mm in length) eg. Nitrile.	Unlined/Flock lined, synthetic rubber/PVC to EN 374. (300mm in length) eg. Nitrile.
	Overall	Basic type eg. Heavy duty polycotton or coverall type 5/6.	Coverall type 5/6.
	Goggles/ Faceshield		Goggles to EN 166 3459B.
9. Physical and chemical properties	Physical State	A whole wheat bait.	
	Colour	Red.	
	Odour	No significant odour.	
	Flammability	Not flammable, but will burn in a fire.	
	Solubility in water	Insoluble.	
	Explosive Properties	None.	
	Oxidising Properties	None.	
10. Stability and Reactivity	Stable under normal conditions. Shelf-life 2 years.		
11. Toxicological information	Acute Toxicity	Oral LD50 (rat) 36000mg/kg	
	Irritancy - Eyes	Not an eye irritant	
	Irritancy - Skin	Not a skin irritant	
	Skin Sensitisation	No known reports of skin sensitisation	
12. Ecological information	This product is hazardous to mammals including domesticated animals, and birds if ingested. Exposure of non-target animals should be prevented.		
13. Disposal considerations	Empty containers:-	Empty completely. Dispose of as Controlled Waste – classification non-hazardous. EWC code 15 01 02.	
	Spent soiled/used/spilled bait:-	Dispose of as Controlled Waste – classification non-hazardous. EWC code 16 03 06.	
	Unused bait:-	Dispose of as Controlled Waste – classification non-hazardous. EWC code 16 03 06.	
	Contaminated PPE:-	Dispose of as Controlled Waste – classification non-hazardous. EWC code 15 02 03.	
	Squirrel bodies:-	Dispose of as Controlled Waste – classification non-hazardous. EWC code 02 01 02.	
14. Transport information	Not classified.		
15. Regulatory information	<p>Not classified as hazardous.</p> <p>FOR USE ONLY AS IN VERTEBRATE CONTROL.</p> <p>Approved under The Control of Pesticides Regulations 1986 for the control of grey squirrels indoors. Approval Number: HSE no 9175.</p> <p>Approved under the Control of Pesticides Regulations (Northern Ireland) 1987.</p> <p>For the Statutory Conditions Relating to Use and Precautions please refer to the product label.</p> <p>Refer to other relevant measures such as the Health and Safety at Work etc Act 1974 and the COSHH regulations and guidance.</p> <ul style="list-style-type: none"> <li>This preparation has been classified in accordance with The Chemicals (Hazard Information and Packaging for Supply) Regulations 2002: CHIP 3. These implement the Dangerous Preparations Directive- 99/35/EC.
